PULMOCON SILVER 2024

Dear Colleagues and Friends,

As we celebrate the silver jubilee of the Academy of Pulmonary and Critical Care Medicine (APCCM), it is a moment of immense pride and reflection on our 25 year journey. Since our inception, the APCCM has been committed to advancing the field of Pulmonology and fostering a strong community of chest physicians in Kerala.

The idea of forming an association specifically for pulmonologists in Kerala emerged in the late 1990s, a time when Respiratory Medicine was gaining recognition globally. Despite the presence of national organizations, there was a lack of a dedicated platform for pulmonologists in our state, often leading to a limited recognition of our specialty. To address this gap, a group of pioneering specialists in Ernakulam came together, and after several discussions, the APCCM was officially inaugurated on February 14, 1999.

Since then, our association has grown remarkably, now boasting a membership of 1,027 dedicated professionals. One of our early achievements was the launch of our journal, "PULMON," guided by the visionary leadership of Dr. Ramesh Chandra Babu. Over the years, we have organized numerous annual and mid-year conferences and workshops, which have been instrumental in promoting knowledge sharing and collaboration among our members.

We are particularly proud of our role in advancing education in Pulmonology, having facilitated the introduction of postgraduate courses (MD, DNB, DM) in several medical institutions. Our specialty has also expanded into various sub-disciplines, such as Interventional Pulmonology, Sleep Medicine, Critical Care Medicine, Pediatric Pulmonology, Occupational Pulmonology, and Pulmonary Rehabilitation, reflecting the growing scope and importance of our field.

As a milestone in our association's journey, this year's conference is not only a celebration of our silver jubilee but also a testament to our continued commitment to excellence and innovation in Pulmonology.

We welcome you to join us at the conference in Kochi on the 4th, 5th, and 6th of October 2024. This event will be an opportunity to bring together experts and learners alike, celebrate our achievements, and explore new frontiers in our specialty. Let us use this occasion to strengthen our community and set the course for the future of Pulmonary and Critical Care Medicine.

Warm regards,

ABSTRACT GUIDELINES FOR POST GRADUATES

➤ Abstract Format:

Title: The title should be concise and clearly indicate the nature of the study. Avoid using abbreviations.

Authors: List all authors, starting with the primary author who will be the main contact. Include the first name, middle initial (if applicable), last name, and institutional affiliation for each author.

Abstract Body: The abstract should not exceed 250 words including spaces. It should be structured as follows

Background: Briefly state the research question and why it is important.

Methods: Describe the design, participants, interventions, and main outcome measures.

Results: Summarize the key findings. Use specific data and statistical significance if applicable.

Conclusion: Highlight the implications of the findings and their relevance to the field.

Formatting Requirements: Font and Size: Use a standard font like Times New Roman, Arial, or Calibri in 12 point size.

Spacing: Single-spaced text is required.

Keywords: Include up to five keywords at the end of the abstract to aid in the indexing and searchability of your submission.

➤ References: Do not include references, tables, or figures in the abstract.

Review and Selection Process: Abstracts will be reviewed by a panel of experts. The selection criteria include relevance, originality, clarity, and contribution to the field. Notifications of acceptance or rejection will be sent by mail. Accepted abstracts will be presented at the conference in oral or poster format.

➤ Presentation Requirements:

Oral Presentations: If selected for an oral presentation, you will have 6 minutes, followed by a brief Q&A session of 2 minutes.

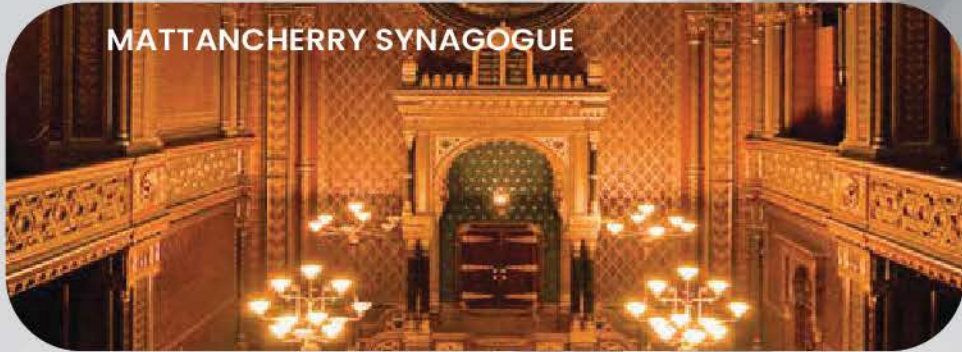

➤ Poster Presentations

- Use PowerPoint
- Present maximum 10 slides
- There should be a header including the session number and title
- E-Posters screen dimensions are 1920 x 1080 (full HD, 16:9)
- Avoid use of red or green fonts as they are difficult to read
- The E-Poster should be self-explanatory
- The text should include your hypothesis, methods, results and conclusions.
